Your assignment is to design a book for the eight parts of speech using the following guidelines.

NOTE: Page numbers are approximate. Yours may be different.

Cover – Using a piece of construction paper, design a book cover for your parts of speech book.

- The title of your book will be “**IVAN CAPP: A Book about the Eight Parts of Speech**”.
- Draw a picture of a person wearing a hat on the cover of your jacket.
- You are the author of this book, so you *must* include your name as author and illustrator.

Inside Cover – The Table of Contents Page - The inside cover will be your table of contents page. List the eight parts of speech using the order listed above. Once you have completed the book, add page numbers to the table of contents.

Page 1 – The Title Page - Design a title page for your book. The title page of your book will be very similar to the cover, but you can use your creativity to illustrate this page.

Page 2 – This page is deliberately left blank.

Page 3 – The Interjections Page - Write the definition of interjection at the top of the page. Be sure to enclose the word and definition in some type of decorative box. I have my page divided into examples and non-examples. There should be six of each.

Page 4 – This page is deliberately left blank.

Pages 5-6 – The Verb Pages - Write the definition of verb at the top of the page and enclose it in some type of decorative box. Divide this into four sections. The first section will be labeled **physical action** and you will list a minimum of six physical action verbs. The next section will be labeled **mental action** and you must have a minimum of four mental action verbs. Section three will be labeled **linking**

verbs and its definition. List at least ten linking verbs. The fourth section will be labeled **helping verbs** and its definition. This section will have a minimum of ten examples.

Page 7-8 – The Adjectives Pages - Write the definition of an adjective at the top of the page and enclose it in a decorative box. List at least fifteen examples of adjectives. Be creative with your writing of the words.

Pages 9-10 – The Noun Pages - Write the definition of a noun at the top of the page and enclose it in a decorative box. Just as you did with the verb pages, you will divide the noun pages into four sections as well. The first section will be labeled **person**. You will need a minimum of ten examples for this section. Section two will be labeled **place** and list at least ten examples. The third section is to be labeled **thing** and have a minimum of ten examples. The final section needs to be labeled **idea** and this section will have a minimum of five examples.

Page 11-12 – The Conjunction Pages - Write the definition of a conjunction at the top of the page and enclose it in a decorative box. On page 11 write the seven coordinating conjunctions. On page 12 write ten examples of subordinating conjunctions.

Page 13-14 – The Adverb Pages - Write the definition of an adverb at the top of the page and enclose it in a decorative box. Adverbs answer several questions. In bold, write the questions adverbs answer. You will need to have *at least three* examples for each question.

Page 15-16 – The Pronoun Pages - Write the definition of a pronoun at the top of the page and enclose it in a decorative box. On one side of the page you will list examples of *singular* pronouns; on the other side, you will have examples of *plural* pronouns. Both sides need at least ten examples.

Pages 17-18 – The Preposition Pages - Write the definition of a preposition at the top of the page and enclose it in a decorative box. On one page, you will list the forty common prepositions; on another page, you will use at least ten of those prepositions in a prepositional phrase.
